Castlemorton Environmental Group

Summer update:

This year we have held talks on:
'Treescapes – a project to create a wildlife corridor from 'Wye to Wyre'
'Gardening for drought'
'Can our rivers survive?
Future topics planned include: Creating and maintaining a wildlife pond; tidal power; composting; recycling fabrics

A committee member led a 'dawn chorus birdsong identification' walk on the hills

We co-supported a talk by Jonathan Porritt at The Cube, Malvern
'Why what we eat matters: climate, food and planet'

Ran a plastic-free stall at local events and distributed free soap nuts for laundry

Distributed free tree saplings – to date we have provided several thousand saplings

Continued to conduct the bat count at the parish hall

Continued with the Churchyard Project to 'improve biodiversity by planting wildlife friendly plants and leaving unmown areas'
