Worcestershire Wildlife Trust

**Stag beetles in Upton upon Severn – A talk by Worcestershire Wildlife Trust**
Location: Memorial Hall, Old Street, Upton upon Severn, Worcestershire, WR8 0HA
Date: Tuesday 26 May 2026
Time: 7:00pm - 8:15pm

**About the event**
Upton upon Severn and surrounding villages are the only place in Worcestershire that are home to the UK's largest land beetle. We're inviting local residents to come along to discover more about these amazing beetles and how to help thrive in and around Upton. There will be a short talk and the opportunity to get advice. We're hoping to be able to offer to create a limited number of log piles for people so this is a great chance to learn more about how you can get involved.
